

Property Risk Inspection LIMITED

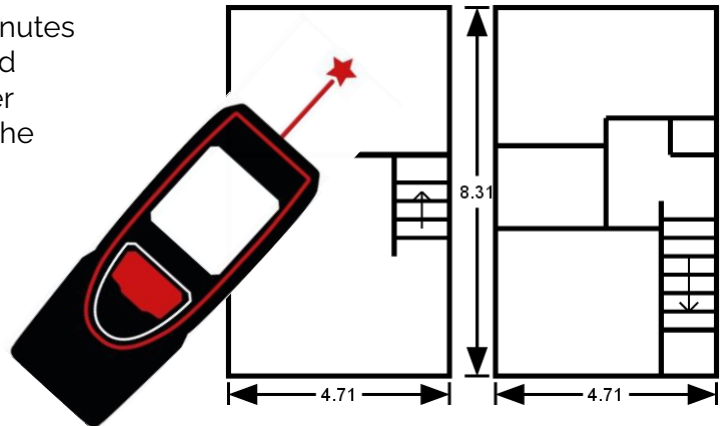

We are PRI – Property Risk Inspection, and have been instructed by Nationwide to complete a photographic survey for mortgage purposes at your property.

This survey must be completed for a mortgage application to be finalised, whether this be for a new buyer or a re-mortgage application.

What to expect on the day

You will be given a 4 hour timeslot for the visit, however can request a call up to one hour prior to the surveyors arrival time. On the day we will require full access to the property internally and externally as room dimensions will be recorded as well as photographs taken throughout.

On average the visit will take around 45 minutes to complete by one of our experienced surveyors. This will be longer for larger properties, to allow for us to gather all the relevant information.

Findings will then be sent to Nationwide and they will use the information to continue with the application.

Please ensure the person allowing the access is 18 years or over.

If you are happy with the date we have proposed or would like to discuss an alternative date, then please call to discuss this further.

You can also contact us to rearrange any confirmed appointments, or to advise of any reason as to why an appointment can no longer go ahead, however changes to the proposed date could cause delay.

Contact us via telephone: 01206 754993 or 01206 754994.
